WELCOME!

DAY OF ACTION:

OUR HEALTH IS NOT FOR SALE!

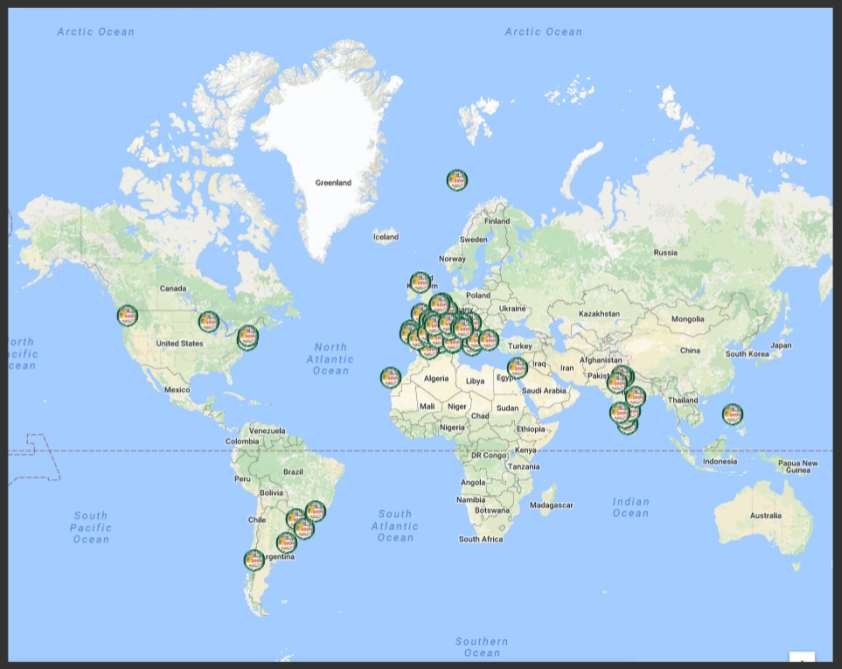
7 APRIL 2017

WE RECOGNIZE WE ARE OCCUPYING STOLEN LAND

- We acknowledge the people – past, present, and future – of the *Dkh^{w}'Duw'Absh*, the Duwamish Tribe, the Muckleshoot Tribe, and other tribes on whose traditional lands we study and work.

WHAT IS THIS DAY ALL ABOUT?

- This is a **global day of action** that began in Europe in 2012 as a way for activists to push back at corporations and private companies who have been ramping up pressure on and threatening public health systems.



WE ARE PART OF A GLOBAL MOVEMENT

India

Brussels

WE ARE PART OF A GLOBAL MOVEMENT

Florence, Italy

- Other actions in:
  - Washington DC
  - NYC
  - Chicago
  - San Francisco…

WHO ARE WE?

www.phmna.org

www.healthallianceinternational.org

LOGISTICS! HOORAY!

- Where are the bathrooms?
- I'm hungry. I'm thirsty!
- Communication strategies for activist spaces
- Social media it up! #health4all
- Go ahead, evaluate us. We don't mind.

PHOTO WAIVER

- Health Alliance International and People's Health Movement may use any and all photographs, filming, audiotaping or videotaping of this event for posting to the web site or on printed materials. Unless otherwise instructed, event participants waive any rights or interests in any or all images.

- IF YOU DO NOT WISH FOR YOUR PHOTO TO BE TAKEN or USED in the future, please see **Julia** or **Albertina** at the back of the room and sign the opt-out sheet.

POLITICAL ECONOMY OF HEALTH (PHM 101)

- Political economy assumes that resources are allocated **not** on the basis of relative efficiency, merit, equity or justice – but according to **power**
- Business/Corporate interests > policies that address social determinants of health (labor policy, childcare, health and social services, housing… etc)

POLITICAL ECONOMY OF HEALTH

- Creating environments which can deliver "health for all" requires knowingly and deliberately reshaping the global economy.
- Critical interrogation of power structures:
  - WHO is making decisions?
  - WHO will be affected by these decisions?
  - WHO will gain access/power/money? WHO will lose?
  - HOW does this impact the people's health?
